

Please note that Dr. Menn is dropping insurance plans effective 9/1/19. The fee for a new patient visit is \$200 and follow up visits generally range from \$100-\$150. Most adult women and adolescents see Dr. Menn 1-2 per year. All labs, cultures, paps, and any other tests are sent to a lab that participates with your insurance so the only cost out of the pocket is Dr. Menn's professional fee. As a courtesy, we will electronically submit the claim to your insurance for you or provide you with a properly coded receipt that can be submitted to insurance. If you have out of network benefits you may get reimbursement or it may be applied to your deductible. You can also submit the receipt to a Health Savings Account for reimbursement if you have one.

Dr. Menn's Fee Schedule

Based on discounted fee from Healthcarebluebook.com

All patients will receive a receipt with proper coding to submit to their insurance.

Payment is due at the time of service.

All labs and tests are sent out to your participating lab.
